UTILITY BROKERS

To help with the move-in process we have teamed up with Utility Brokers to streamline the registration process for your new property by notifying the local council, water supplier and your new energy provider of your move.

We use software supplied by Utility Brokers to notify all the organisations that you have arrived and provide your contact information, moving in date and meter readings where applicable.

Broadband & TV

Utility Brokers work with different providers and offer the ability to sign-up before you move into your new home so that you are “live when you move in”.

Gas & Electricity

On moving in to your new property, you will generally be placed on a standard Gas & Electricity tariff which is usually the provider’s most expensive tariff, the Utility Brokers can arrange on your behalf for the supply of a property to be switched to their preferred supplier, during the void period. This ensures that opening and closing meter reads are sent to the right supplier at the right time which means no estimated bills or disputed meter reads that can cause no end of trouble for you. Not only that but it means you are on one of the best value tariffs in the UK
